

5_RECORDING FORMS

keep an accurate check on **food safety** procedures within your business

Recording Forms

When using Safe Catering, it is essential that the outcomes of your checks / monitoring procedures are recorded at a frequency that reflects the nature and size of your business. Similarly, when checks / monitoring reveal that your procedures, have not been followed, you must also record what you have done about it (corrective actions). Recording helps you to keep an accurate check on food safety procedures within your business and enables you to demonstrate that you are controlling hazards in an effective manner.

What paperwork is needed?

Your monitoring checks may be recorded by using one or a combination of the following methods:

- 1. By using the Recording Forms provided in 'Safe Catering'.
- 2. By using Recording Forms which have been drawn up or adapted by yourself, either in paper copy or electronically.

Which of the Recording Forms provided in Safe Catering should be used?
